SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **CDPH Statewide Travel Advisory**

The California Department of Public Health (CDPH) has issued a new Travel Advisory superseding the 11/13/20 guidance. Californians should avoid non-essential travel to any part of California more than 120 miles from one's place of residence, or to other states or countries. Non-essential travelers from other states or countries are strongly discouraged from entering California, and if they do, should adhere to quarantine procedures. All persons arriving in or returning to California from other states or countries should self-quarantine for 10 days after arrival, except as necessary to meet urgent critical healthcare staffing needs or engage in emergency response.

WEATHER KEY POINTS

02/13/21 - 02/19/21

Saturday - Monday

- Periods of rain and snow across northern and central California will taper off through the afternoon hours today
 - Some travel impacts expected over the Sierra and northern California mountains with brief heavy snow, though additional accumulation will only be 1 to locally 5 inches today, highest over the central Sierra
- Strong, gusty winds are expected through tonight over the central and southern Sierra as well as many of the southern California mountains, much of the Mojave Desert, the Imperial Valley, and coastal areas of southern California. Wind gusts of 40 to 65 mph are expected, which could produce some minor tree damage or lead to some power outages.
- Another round of light to moderate rain and mountain snow will impact northern California Sunday night into Monday
 - Snow levels expected to rise to around 5,000 feet
 - Gusty conditions likely to continue across southern California and the southern Sierra through Monday as this storm slides by to the north

Tuesday-Wednesday

- No notable impacts are expected with dry weather returning to much of the state

Thursday-Friday

- Another weather system aimed at northern California will bring additional valley rain and mountain snow to the northern half of the state

CALIFORNIA WEATHER IMPACTS

02/13/21 - 02/19/21

<u>Hazards / Day</u>	SAT	SUN	MON	TUE	WED	THU	FRI
